COMMITTEE
WORK AFLOAT.

Secretary Moody Anticipates a Beneficial Result.

Millions Would be Expended by a General Board.

Extent of Refunding Operations. El Paso Ore Frauds—Sanger Decides to Resign.

BY DIRECT WIRE TO THE TIMES.]
WASHINGTON, July 12.—[Exclusive Dispatch.] Far-reaching in its effect on naval legislation will be the "continuing work afloat" as Secretary Moody put it today on the Dolphins last Wednesday on the Dolphin for the inspection of the navy yards of the North Atlantic Coast. The trip was taken at the instance of Secretary Moody, and will include visits to the yards at Norfolk, League Island, New London, Boston, Portsmouth, Newport, and New York.

A thorough inspection of each yard will be made, so that every member of the committee may be able in preparing the naval bill for next year, to work with a knowledge of the subject based on personal inspection. Much more important than yard to yard inspection will be the daily session of the committee on the Dolphins.

Chairman Folsom and Representative Dayton, ranking Republican members of the committee, spent several days in conference with Secretary Moody, who went over with them pretty thoroughly the pressing needs of the navy for the next year. The committee will meet nearly four months in advance of the opening of Congress, a general outline of the bill, Secretary Moody will recommend in his annual report.

Improvement of the naval station at Guantanamo will be the second important feature of the next naval bill. The committee has been supplied with the detailed plan of the general board for the fortification of this station, which, it is intended, shall be the home base for the American navy in the Caribbean Sea. Only \$100,000 was appropriated last year for preliminary work at Guantanamo, and this will be expended in construction of temporary barracks, a small hospital and a wharf. The plan of the general board, if completed, will involve the expenditure of millions of dollars, and Secretary Moody hopes a liberal appropriation will be provided in the next bill to get the work under way.

Although Secretary Moody has not communicated his views on the general bill to the House Naval Committee, the members took with them the details of the plan as approved by the general board, and will spend considerable time upon its study.

WU TING FANG.

HIS NEW JOB IN CHINA.

BY THE ASSOCIATED PRESS.—A.M.

WASHINGTON, July 12.—Minister Conover, of Peking, has informed the State Department that Wu Ting Fang, formerly Chinese Minister to the United States, has been appointed Second Assistant in the Corps of Under Secretaries.

"While," says Mr. Conover, "this gives Mr. Wu essentially only a clerical place, yet it makes an opportunity for utilization of his foreign knowledge and experience of the Western Government as desired." Minister Conover reported that Wu Ting Fang had been promoted to the position of First Secretary, or Director, of the Board of Foreign Affairs, vice Na Tong, the present president of the Board. Dr. Liang Shih Lin, Dr. Li Hsien has been appointed Second Secretary, or Director, of the Board of Foreign Affairs.

MARINE BAND CELEBRATES.

OLDEST IN THE COUNTRY.

BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, July 12.—[Exclusive Dispatch.] The United States Marine Band today celebrated its one hundred and fifth anniversary as an organization. The band was organized under the act passed by Congress in 1798, which was signed by President John Adams, July 11. Two days later the musicians were enlisted and began practicing. The act allowed the enlistment of sixteen fifers and the same number of drummers. A fife major, who was "to be allowed the same extra pay and emoluments of an officer serving in the field," under the act, was to be the head of the organization.

The possibilities of the corps finally appealed to the official Washington band, and as there was nothing common with the government to furnish money for official receptions and affairs generally, it was

IF HE WIN THAT CUP.

Sir Thomas Pledges Himself to Take an American Wife to Guard It.

BY DIRECT WIRE TO THE TIMES]

NEW YORK, July 12.—[Exclusive Dispatch.] Sir Thomas Lipton was the guest of honor at a reception today, given by Thomas Barrett, a rich manufacturer, and Mrs. Barrett at Larchmont Cottage. In the midst of the festivities Barrett sprung it on Sir Thomas that, in the event of his lifting the America's cup, it would be Sir Thomas' duty to take an American wife.

In the midst of the jollity occasioned by Barrett's remark Sir Thomas arose, and after paying a glowing tribute to American women as God's most glorious handwork, said: "If I get the cup I will take an American wife, so that I will have someone to guard it as zealously as Americans have done for so many years."

finally decided to make the organization of the government band, with the patronage of the government behind it.

President Lincoln, July 12, signed the act making the Marine Band consist of thirty members of three different classes, and designating the five major as chief musician.

Among the band's most famous leaders was John Philip Sousa, who retired to form a musical organization of his own. Fanciulli of the New York Seventy-first Regiment Band followed Sousa. The band has played at every reception and affair of any importance given by the government, and many of those given by individuals for nearly all of the hundred and five years of its existence. It is the oldest band in the United States and has always been located with the headquarters of the Marine Corps in Washington.

ROBERT SHAW OLIVER SUCCEEDS

(BY THE ASSOCIATED PRESS.—A.M.)

OYSTER BAY (L.I.), July 12.—At the conference between President Roosevelt and Secretary Root, it was decided to appoint Robert Shaw Oliver of Albany to be Assistant Secretary of War, while William Cary Sanger remained. Mr. Sanger has decided to retire on account of ill-health of his wife.

GEN. OLIVER.

(BY THE ASSOCIATED PRESS.—P.M.)

OYSTER BAY, July 12.—The appointment has been in contemplation for some time, as it has been known that Secretary Sanger desired to retire, and the selection was placed in the hands of the President to be accepted as soon as convenient. Gen. Oliver served in the Civil War as a volunteer officer and subsequently served as an officer of the regular army established in the Union infantry and cavalry branches. For many years he has been identified with the National Guard of New York and now is a brigadier-general in command of the brigades which quarter are at the iron business, and is quite as prominent in commercial circles as he is in military affairs.

(BY THE ASSOCIATED PRESS.—A.M.)

WASHINGTON, July 12.—United States Minister Wilson makes from Santiago de Chile a rather alarming cable report to the State Department touching the plague. He says the disease has spread to nearly all Chilean ports; that the postal service is disorganized, and that in America itself has been received at Santiago for nine weeks.

REFUNDING OPERATIONS.

EXTENT OF THE EXCHANGE.

(BY THE ASSOCIATED PRESS.—A.M.)

WASHINGTON, July 12.—The amount of the 3 and 4 per cent. bonds so far received at the treasury for exchange into 2 per cent. consols is \$7,000,000. These refunding operations, which will close on July 21, will, it is expected, result in a saving of \$1,000,000 to the treasury, to date, resulted in increased or new circulation of national bank notes to the amount of approximately \$35,000,000.

POSTOFFICE INVESTIGATION.

NO NEW DEVELOPMENTS.

(BY THE ASSOCIATED PRESS.—A.M.)

WASHINGTON, July 12.—Postmaster Hayes has no new developments in the postoffice investigation. Charles Hedges, superintendent of city fire delivery services, against whom charges have been made which are under investigation, had an interview with the Postmaster-General, but the latter did not receive him. There was no change in Hedges' case.

Mr. Bristow had a long conference with Mr. Payne regarding the progress of the investigation. John M. Masten, Postmaster-General, while Masten was acting First Assistant Postmaster-General, several years ago, at that time Masten approved the contract with a Birmingham company for time clocks and had occasion to pass on such matters.

Potter, pastor of the Union Street Presbyterian Church of Oakland, urging the Governor to commute the death sentence to life imprisonment.

Gov. Pardee arrived in the city to-morrow, took up the case.

The Governor has no message to Rev. Mr. Potter that, after examining the papers and carefully considering the case, he could see no sufficient reason for exercising clemency.

OLD-TIME CONFLICT.

BY THE ASSOCIATED PRESS—A.M.
UNIVERSITY OF CALIFORNIA, July 12.—The new regulation promulgated from the university today will make it a difficult matter in the future to get a high school teachers' certificate. This is the result of an old-time conflict between the university and the secondary schools, the latter holding the status of power. The new regulation, made recently in the State Board of Education. After a conference between the representatives, it has finally been decided that the future the university will not accept more than 150 students less than their standard. In distribution is raised, and the State Board of Education will not grant certificates unless a university raises its standard. In a few words, the normal schools must improve their courses or the student will have to go to both if he wants a teacher's certificate.

GERMAN-CANADIAN TARIFF.

British Foreign Office Issues the Correspondence of the Last Six Years on the Subject.

(BY THE ASSOCIATED PRESS—P.M.) LONDON, July 12.—(By Atlantic Cable.) A white paper was issued by the Foreign Office today giving the correspondence between Great Britain and Canada in connection with the German-Canadian tariff discussion. The dispatches cover the period from May 8, 1897, to July 7, 1902, but their text adds little to the statements by Foreign Office officials brought out in Parliament from time to time. The general tone of the correspondence indicates a greater willingness on the part of Germany to discuss in a friendly way the question, after Colonial Secretary Chamberlain's public advocacy of making a tariff policy.

July 3 Germany suggested an inter-

change of ideas with a view to a friendly settlement. This suggestion was accepted by Lord Lansdowne, although the British Foreign Secretary, Sir Edward Grey, who opposed it, and Britain's refusal to admit Germany's right to treat Canada or any other colony granting special tariff concessions to the mother country as a separate customs territory, to be made to suffer by reference to the privileges granted to them will be regarded as unprofessional conduct, and will be treated as such.
